

PROFESSIONAL PEDAL BOARDS

diago

A Diago pedal board is the most convenient way to organise, protect and transport your effects pedals.

It combines a pedal board and hard case in one which is both lightweight and roadworthy. Ideal for transporting your gear between gigs and practices, making set-up and take-down quick and hassle-free, it's also convenient for storing your pedals at home.

Undo the catches, remove the lid, plug in your guitar, amp and power supply and you're ready to rock and roll. Easy!

- 1/2" plywood panel construction
- Heavy duty fabric covering
- Heavy duty catches with lock ring
- Through-bolted handle
- Armour protected corners
- Non-slip feet
- Quick-release hinges
- Detachable foam padded lid
- Low-profile pedal board base
- Velcro® loop covered base
- Velcro® hook tape included

Heavy Duty Catches!

TOURMAN PB04

This pedal board is the one for you if you use a number of pedals from full size wah wabs and volume pedals, to larger 18v-type units such as the MXR Stereo Chorus. Ideal for the session player or multi-band musician.

SHOWMAN PB03

This mid-sized case offers an ideal compromise between physical size and internal capacity, with room for your most-used pedals and a power supply unit.

GIGMAN PB02

This compact pedal board is easily portable, capable of carrying your 'most vital' pedals with power supply - also ideal to have as 'back up' for your larger pedal board!

Detachable Lid.
Pedal Board Base!

Size Comparison Guide

DIAGO POWERSTATION

diago

This is the *ULTIMATE* pedal board power supply.

It will power up to 30* pedals without noise or hum!

Powering multiple effects pedals has long been a problem - cheaper pedal power supplies often feature under-rated, unregulated, poorly filtered designs that pollute the guitar signal with extraneous noise and hum.

The Diago Powerstation uses digital switch mode technology, making it quiet, light, efficient and small - perfect for a reliable, no-fuss pedal power supply!

It also works worldwide!

*with additional daisy chains - one supplied

- Powers over 95% of pedals
- Powers up to 30 pedals (with enough Daisy Chains)
- Studio quality components
- Quite - hum and noise free
- Light and compact
- Heavy duty ABS shock free case
- Works in ANY country
- No need for step-up, step-down transformers
- Short circuit and voltage protection
- Meets national & international safety regs

POWERSTATION PS01

DIAGO ACCESSORIES

Diago offers a Deluxe Daisy Chain power supply link taking the regulated power supply to six pedals in your line-up.

Simply attach another daisy chain to power more pedals.

PS02 Deluxe Daisy Chain - 6 x right angled 2.1mm barrel plugs. 300mm between each plug.

A selection of power connection adapters is also available to suit most pedal types.

- PS03** Green Adaptor - Centre positive, 2.5mm barrel plug.
- PS04** Blue Adaptor - Positive tip, 3.5mm mini jack plug.
- PS05** Red Adaptor - Centre positive, 2.1mm barrel plug.
- PS06** White Adaptor - 9V battery snap connector.
- PS07** Black Adaptor - 30cm extension lead for daisy chain.
