

# Farley's StagePlayer 2

**A must have for any player and shops too!**

Pub 'n' club stages are never exactly endowed with an over-abundance of room...

And if you're using an acoustic guitar, then the chances of that instrument getting bumped over are almost 100%, even with the best of (protective) intentions. So this space-saving device from Farley's, the StagePlayer 2 could well be the answer – a stool with an acoustic/electric guitar stand built-in. The stool folds completely flat, as the neatly-designed guitar stand support arms fold into the stool, so it doesn't take up any space at home or in the car on the way to the gig. At home, at rehearsal, or on a cramped stage, the StagePlayer stool + guitar stand is the safe answer. Arrives in full colour retail packaging.
