GUITAR ACCESSORIES

Manufactured by Dunlop Manufacturing Inc. under license from Harley-Davidson Motor Company.

GUITAR STRAPS

Leave lost in the crowd to someone else. Harley-Davidson® guitar straps are made of premium full-grain leather and are a tribute to the legendary Milwaukee V-Twin and the generation that took its distinctive rumble on the road.

The calf split suede leather, characterised by its supple hand and flexibility, is the leather for the ages. It is soft and supple yet strong and durable. The split suede lining is strong and resilient, ideally suited for the serious guitar player where durability and appearance are so important. Sturdy saddle stitching adds character and strength.

Player's Packs are a great way to present these premium quality guitar picks. Each Player's Pack contains 6 picks of a single gauge. The attractive header card carries all the information your customers need to choose their favourite style guitar picks.

Acetal picks feature a larger gripping surface and sharper tip. The tip is great for lead work and the larger size makes it easy to hold for power chording.

Tortex® picks are carefully designed and manufactured to give the characteristic maximum memory and minimum wear that made original tortoise shell famous.

Pearloid picks are made of the highest quality celluloid, available in black and white. They offer warm tone and traditional feel of celluloid in an ever-popular shape.
